

**EXPERIENCE HYGIENIC DESIGN**

**SENSORS FOR THE  
FOOD AND BEVERAGE  
INDUSTRY**

Pepperl+Fuchs GmbH, headquartered in Mannheim, is a leading developer and manufacturer of electronic sensors and components for the global automation market. A global presence with more than 4,000 employees, continuous innovation and steady growth over 60 years have formed the basis of international success.

## Pepperl+Fuchs – Your Specialist for the Food and Beverage Industry

The requirements for the food and beverage industry are varied. So too, is our product portfolio. We offer solutions for every step in your automation process – from sensors for fill level measuring, presence checking, dose measurement, to quality control, and position sensing.

### Continuous innovations

Pepperl+Fuchs continuously sets new standards in quality and innovative technologies. We now offer hygienically designed ultrasonic, photoelectric, and inductive sensors for the food and beverage industry:

- Ultrasonic sensors
- Photoelectric sensors
- Inductive sensors

Our specialist will be glad to help you.

## Three steps to hygiene

### PRODUCT CONTACT ZONE

All areas where food is processed, transported or stored, and all surfaces which come into contact with food

### SPLASH ZONE

All areas outside the product zone where food may splash and accumulate, but there is no direct contact with food

### PRODUCT-FREE ZONE

All areas that are neither contacted by the product nor the product parts

## Sensors for the food and beverage industry

- Standard photoelectric sensors
- Photoelectric safety sensors
- RFID Identification

- Rotary encoders
- Inductive sensors
- Ultrasonic sensors

- Optical identification
- Positioning system
- Inclination and acceleration sensors

The food and beverage industry sets high standards for machines and components. Pepperl+Fuchs' hygienically designed sensors are especially adapted for this industry. Our sensors meet internationally accepted standards and guidelines such as EHEDG and the FDA for the food and beverage industry.

## Pepperl+Fuchs standards and guidelines

- European Hygienic Engineering Design Group, design criteria for hygienic machines, apparatus and components
- EHEDG certification of sensors, including accessories
- Pepperl+Fuchs is member of EHEDG and is involved in the design and improvement of the guidelines.

- Sensor housings and accessories are resistant to aggressive cleaning agent

- The FDA (Food and Drug Administration) is a US supervisory authority for food and drugs. This authority gives approvals for products and materials applying to the food and beverage industry.

- Sensors and accessories are FDA approved

**IP69K**

- Guaranteed tightness of sensors and accessories in applications with steam jet and also after ongoing temperature shocks

## Your benefits

- Faster and efficient cleaning
- Shorter cleaning times
- Microbiological safety
- Higher machine availability

## PRODUCT CONTACT ZONE

All areas where food is processed, transported or stored, and all surfaces that come into contact with food.

Cleaning: Aggressive cleaning with chemicals, hot water and high pressure

IP69K

## Our solutions for the product contact zone: 3 technologies with hygienic design

### Ultrasonic, photoelectric and inductive sensors

- EHEDG-certified sensors with hygienic design
- Unique sensor and mounting solutions minimize the contamination risk
- Easy-to-clean sensor design for microbiological safety
- Shorter cleaning times for higher machine availability

## The unique Pepperl+Fuchs hygienic concept – your benefit

**A total solution that includes the sensor and the installation hardware guarantees a hygienic design**

- Mounting solutions are part of the EHEDG certificate
- Food-safe seals ensure no metal on metal connections

**A smooth, sleek, and durable surface design free of cracks and crevices enables food particles, water, and cleaning agents to run off, guaranteeing maximum cleaning efficiency**

- High-grade steel housing 316L, 1,4404 - rust and acid-proof high-grade steel (V4A)
- Self-cleaning housing surfaces, maximal surface roughness  $R_a < 0.8 \mu\text{m}$
- All internal angles are rounded with a minimum radii of 6 mm; edges and corners are ground smooth

**No crevices permits the best results during cleaning process**

- The highest degree of protection against ingress of water even with steam cleaners at high pressure with hot water

## First hygienically designed ultrasonic metal face sensors

These sensors are produced according to EHEDG standards especially for the food and beverage industries. As a complete solution, the hygienically designed sensor and mounting hardware guarantee the lowest risk of contamination, best possible cleaning, and the elimination of bacteria.

IP69K

Easy to clean,  
stainless steel surface  
V4A (1.4404/316L)

No gaps and crevices

Highest cleaning efficiency, maximal  
surface roughness  $R_a < 0.8 \mu\text{m}$

Materials are food industry  
approved

Capable of withstanding  
vigorous cleaning processes  
and extreme temperature  
variations

No dirt or food particle  
build-up

Withstands washdown,  
IP69K

## UMC3000 METAL FACE SENSOR WITH HYGIENIC MOUNTING SOLUTION

Model number sensor including hygienic mounting solution	UMC3000-30H-E5-5M-FA UMC3000-30H-I-5M-FA
Model number hygienic mounting solution	MH-30H-01-FA
<b>Technical data</b>	
Sensing range	200 mm ... 3000 mm
Output type	Switching or voltage output
Connection type	cable TPE, 5 m
Operating voltage	10 V DC ... 30 V DC
Dimensions	ø 30 mm, length 100 mm

## UNIQUE HYGIENICALLY DESIGNED SENSOR AND MOUNTING SOLUTION

### YOUR BENEFITS

- Machine cleaning without removing the sensor
- Faster and safe machine cleaning
- Higher machine availability

## UME1000 ULTRASONIC METAL FACE THROUGH BEAM BARRIER

Model number sensor	UME1000-18H-SE2-FA
Model number hygienic mounting solution	MH-18H-01-FA
<b>Technical data</b>	
Sensing range	1000 mm
Output type	switching output
Switching frequency	>100 Hz
Operating voltage	10 V DC ... 30 V DC
Dimensions	ø 18 mm, length 55 mm
Protection class	IP67
Connection type	cable PUR, 2 m
Ambient temperature	-25 °C ... +85 °C

## MLE76 series – Perfect merging of sensor and mounting with hygienic design

Stainless steel sensors with hygienic design for safe food and processing industry, in brewery and creamery applications. Specially designed surfaces, unique joining geometry with press in procedure of the front cover for residue-free cleaning.

IP69K

Easy to clean, stainless steel housing V4A (1.4404/316L)

No controls, indicator LEDs behind the front cover

Compression fit eliminates gluing

Special coating provides maximum chemical resistance and excellent scratch resistance

Integrated mounting solutions are part of the EHEDG certificate

Materials are food industry approved

Easy to clean housing surfaces, as all internal angles are rounded and seamless welded

Highest cleaning efficiency, surface roughness  $R_a < 0.8 \mu\text{m}$

Withstands washdown, IP69K

No gaps and crevices, no dirt or food particle build-up

Capable of withstanding vigorous cleaning processes and extreme temperature variations  
ECOLAB

## MLE76XXX-54-G – RETROREFLECTIVE SENSOR FOR TRANSPARENT OBJECTS

<b>Model number</b>	<b>MLE76XXX-54-G</b>
<b>Technical data</b>	
Sensing range	5.1 m
Light type	Red light
Diameter of the light spot	approx. 40 mm at 1 m
Operating voltage	10 V DC ... 30 V DC
Output type	One or double push-pull output
Switching type	light/dark on
Response time	500 µs
Dimensions W x H x D	12.9 mm x 44.9 mm x 25.1 mm

## MLE76XXX-8-H – BACKGROUND SUPPRESSION SENSOR AND PERMANENTLY TRIGGERED DETECTION RANGE

<b>Model number</b>	<b>MLE76XXX-8-H</b>
<b>Technical data</b>	
Max. detection range	50 mm, 100 mm, 140 mm
Light type	Red light
Diameter of the light spot	approx. 5 mm at 100 mm
Operating voltage	10 V DC ... 30 V DC
Output type	One or double push-pull output
Switching type	light/dark on
Response time	500 µs
Dimensions W x H x D	12.9 mm x 44.9 mm x 25.1 mm

## COMPLETE UNIQUE SENSOR, MOUNTING AND ACCESSORIES SOLUTION WITH HYGIENIC DESIGN

### YOUR BENEFITS

- Machine cleaning without dismantling the sensors
- Faster and safe machine cleaning
- Higher machine availability
- Different hygienically designed mounting solutions
- Reflectors with safe hygienic design for various application solutions

## Inductive metal face sensors with hygienic design for higher machine efficiency

Increase machine productivity with sensors especially developed according to EHEDG standards. Intelligent sensor and mounting solutions with hygienic design and self-cleaning surfaces enable higher cleaning efficiency.

IP69K

Easy to clean,  
stainless steel surface  
V4A (1.4404/316L)

No gaps and crevices

Highest cleaning efficiency, maximal  
surface roughness  $R_a < 0,8 \mu\text{m}$

Capable of withstanding  
vigorous cleaning processes  
and extreme temperature  
variations

Materials are food industry  
approved

No dirt or food particle  
build-up

Withstands washdown,  
IP69K

## M12 INDUCTIVE METAL FACE SENSOR

Model number sensor	NMB5-12H65-E2-FA
Model number hygienic mounting solution	MH-30H-01-FA
<b>Technical data</b>	
Rated operating distance	5 mm, embeddabl
Output type	switching output
Switching frequency	300 Hz
Connection type	cable PUR, 2 m
Operating voltage	10 V DC ... 30 V DC
Dimensions	ø 12 mm, lenght 65 mm
Ambient temperature	-25 °C ... +85 °C

## UNIQUE HYGIENICALLY DESIGNED SENSOR AND MOUNTING SOLUTION

### YOUR BENEFITS

- Machine cleaning without removing the sensor
- Faster and safe machine cleaning
- Higher machine availability

## M18 INDUCTIVE METAL FACE SENSOR

Model number Sensor	NMB10-18H65-E2-FA
Model number hygienic mounting solution	MH-18H-01-FA
<b>Technical data</b>	
Rated operating distance	10 mm, embeddabl
Output type	switching output
Switching frequency	200 Hz
Connection type	cable PUR, 2 m
Operating voltage	10 V DC ... 30 V DC
Dimensions	ø 18 mm, lenght 67 mm
Ambient temperature	-25 °C ... +85 °C

## SPLASH ZONE

All areas outside the product zone where food may splash and accumulate, but there is no direct contact with food

Cleaning: Chemical and hot water cleaning

## Metal Face Sensors for hard continuous operation

With their washdown design, these sensors are absolutely robust and reliable even when using aggressive cleaning agents.

IP69K

Withstands washdown,  
IP69K

Capable of withstanding  
vigorous cleaning processes  
and extreme temperature  
variations  
ECOLAB

Stainless steel surface V4A (1.4404)  
for easy cleaning

Materials are approved for  
the food industry

## ULTRASONIC METAL FACE SENSORS

<b>Model number</b>	<b>UME1000-18GH-SE2-FB</b>
<b>Technical data</b>	
Sensing range	1000 mm
Output type	Frequency output
Switching frequency	>100 Hz
Connection type	cable PVC, 2 m
Operating voltage	10 V DC ... 30 V DC
Dimensions	ø 18 mm, lenght 67 mm
Ambient temperature	-25 °C ... +85 °C

## INDUCTIVE METAL FACE SENSORS

<b>Model number</b>	<b>NMB5-12GH50-E2-V1-FB</b> <b>NMB5-12GH50-E2-FB</b>
<b>Technical data</b>	
Rated operating distance	5 mm, embaddable
Output type	Frequency output
Switching frequency	300 Hz
Connection type	cable PVC, 2 m
Operating voltage	10 V DC ... 30 V DC
Dimensions	ø 12 mm, lenght 65 mm
Ambient temperature	-25 °C ... +85 °C

<b>Model number</b>	<b>NMB10-18GH50-E2-V1-FB</b> <b>NMB10-18GH50-E2-FB</b>
<b>Technical data</b>	
Rated operating distance	10 mm, embaddable
Output type	Frequency output
Switching frequency	200 Hz
Connection type	cable PVC, 2 m
Operating voltage	10 V DC ... 30 V DC
Dimensions	ø 12 mm, lenght 65 mm
Ambient temperature	-25 °C ... +85 °C

## ACCESSORIES

<b>Hygienical cable</b>	<b>Model number</b>	<b>V1-GV4A-2M-PP straight</b> <b>V1-WV4A-2M-PP angled</b>
-------------------------	---------------------	--

SPLASH ZONE

## Series MLE75 in washdown design for clean solutions

This photoelectric series is designed for tough usage in the food and beverage industry. The stainless steel housing is reliable also in extreme environments.

IP69K

Sensitivity and sensing range adjuster

Indicator LEDs behind the front cover

Compression fit eliminates gluing

Special coating provides maximum chemical resistance and excellent scratch resistance

Materials are approved for the food industry

Stainless steel surface V4A (1.4404) for easy cleaning

Capable of withstanding vigorous cleaning processes and extreme temperature variations  
ECOLAB

Withstands washdown, IP69K

## MLE75-54-G RETROREFLECTIVE SENSOR FOR TRANSPARENT OBJECTS

<b>Model number</b>	<b>MLE75-54-G</b>
<b>Technical data</b>	
Sensing range	5.1 m
Light type	Red light
Diameter of the light spot	approx. 40 mm at 1 m
Operating voltage	10 V DC ... 30 V DC
Output type	One or double push-pull output
Switching type	Light/dark on
Response time	500 µs
Dimensions W x H x D	12.9 mm x 44.9 mm x 25.1 mm

## MLE75-8-H BACKGROUND SUPPRESSION SENSOR

<b>Model number</b>	<b>MLE75-8-H</b>
<b>Technical data</b>	
Max. detection range	0 mm ... 140 mm, adjustable
Light type	Red light
Diameter of the light spot	approx.. 5 mm at 100 mm
Operating voltage	10 V DC ... 30 V DC
Output type	One or double push-pull output
Switching type	Light/dark on
Response time	500 µs
Dimensions W x H x D	12.9 mm x 44.9 mm x 25.1 mm

## ACCESSORIES REFLECTORS FOR MLE75-54-G

### Chemically stable reflectors with IP69K protection class and Ecolab certificate

<b>Model number</b>	
REF-H20x40F	Reflector rectangular, 20 mm x 60 mm with mounting hole
REF-H60F	Reflector rectangular, 40.5 mm x 60 mm with mounting hole
REF-H100F	Reflector rectangular, 100 mm x 100 mm with mounting hole
REF-S20F	Reflector, diameter 20 mm with screw fastening M4

## PRODUCT FREE ZONE

All areas that are neither contacted by the product nor the product part

## Choose from the large Pepperl+Fuchs Portfolio

As a pioneer and innovator in industrial sensor systems, Pepperl+Fuchs is known for high-quality sensors in the food, beverage and packaging industry. Whether it's inductive, photoelectric and ultrasonic sensors, positioning or identification systems, Pepperl+Fuchs is always a reliable partner for customers around the world.

## STANDARD PHOTOELECTRIC SENSORS

- Precise and non-contact detection, acquisition and monitoring
- Retroreflective and thru-beam sensors
- Background suppression sensors
- Wide range of designs and models

## INDUCTIVE SENSOREN

- Robust design
- Protection class up to IP68 and IP69K
- Wide range of designs and models

## ULTRASCHALLSENSOREN

- **Ultrasonics XL** – Diversity from the technology leader in ultrasonic sensors
- Non-contact distance measurement
- Robust design
- Immune to dirt
- Analog or switching outputs

## PHOTOELECTRIC SAFETY SENSORS

- From single-beam safety thru-beam sensors to multi-beam machine protection
- Finger protection, hand protection and body protection
- Integrated evaluation or evaluation using SafeBox

## OPTICAL IDENTIFICATION

- Reliable 1D and 2D code reading (e.g. Code 128, Data Matrix, QR Code, etc.)
- High-speed reading up to 10 m/s
- Stationary scanners and readers
- Handheld scanners

## RFID IDENTIFICATION

- Read/write devices
- Large variety of tags
- Handheld readers
- Control interfaces IDENT Control, IDENT Control Compact
- Support for all RFID frequencies
- Interfaces for all common industrial bus systems

## POSITIONING SYSTEM

- Non-contact inductive linear and angular positioning
- Wear free and contamination resistant
- Fully encapsulated and suitable for use under harsh ambient conditions
- Wide range of functions with programmable measurement range and switching range

## ROTARY ENCODERS

- Positioning tasks and detection of rotational movements
- Incremental and absolute rotary encoders
- Single-turn and multi-turn versions
- Certified functional safety for plants up to SIL3 and PLe

## INCLINATION AND ACCELERATION SENSORS

- Extremely robust measuring principle and enclosure
- Measurement range: 0° ... 360°
- High shock resistance: 100 g
- Temperature range: -40 °C ... +85 °C
- Protection class: IP68 and IP69K

# FACTORY AUTOMATION – SENSING YOUR NEEDS

Pepperl+Fuchs sets the standard in quality and innovative technology for the world of automation. Our expertise, dedication, and heritage of innovation have driven us to develop the largest and most versatile line of industrial sensor technologies and interface components in the world. With our global presence, reliable service, and flexible production facilities, Pepperl+Fuchs delivers complete solutions for your automation requirements – wherever you need us.
